

HELLO!

Thank you for downloading **NinaBobo Theme**. Please follow our simple step-by-step guide for installing and customizing the theme.

NINABOBO THEME [PRESTASHOP 1.3.6.0]

NinaBobo is another Prestashop E-Commerce theme. It's suitable for selling baby and toddler products, toys for kids, and other nursery stuffs.

FEATURES

- Prestashop 1.3.6 compatible
- 3 columns of fixed width
- Integrated AwesomeSlider for Homepage
- Julian Breux horizontal menu
- Fully customized default module
- Scrolling Page jQuery Plugin

INSTALLATION

Please follow these installation instructions:

1. Unzip the **ninabobo-theme** file.
2. Copy the theme folder **themes/ninabobo** to your **yourshop/themes** directory.
3. Copy all file & folders under **modules** folder to your **yourshop/modules** directory.

HELP

We're happy to respond to any queries, comments, or issues you might have. Tell us what you think at contact@dapurpixel.com

APPEARANCE

You login to your Prestashop admin panel, click on **Preferences**, and then click **Appearance**.

The screenshot shows the Prestashop admin panel's 'Appearance' settings page. At the top, a breadcrumb trail reads 'Back Office >> Preferences >> Appearance'. The page is divided into two main sections: 'Appearance' and 'Themes'. The 'Appearance' section contains three settings: 1. 'Header logo:' with a text input field containing the 'NinaBobo' logo and a 'Browse...' button. A callout bubble with the number '1' points to this section. Below the input field, it says 'Will appear on page and e-mail headers'. 2. 'Favicon:' with a text input field and a 'Browse...' button. A callout bubble with the number '2' points to this section. Below the input field, it says 'The favicon used by your shop'. 3. 'Navigation pipe:' with a text input field containing a greater-than sign (>) and a 'Save' button below it. A callout bubble with the number '3' points to the 'Themes' section below. The 'Themes' section shows two theme thumbnails: 'ninabobo' (highlighted with an orange border) and 'prestashop'. Both thumbnails have a 'Save' button below them.

Follow these 3 steps:

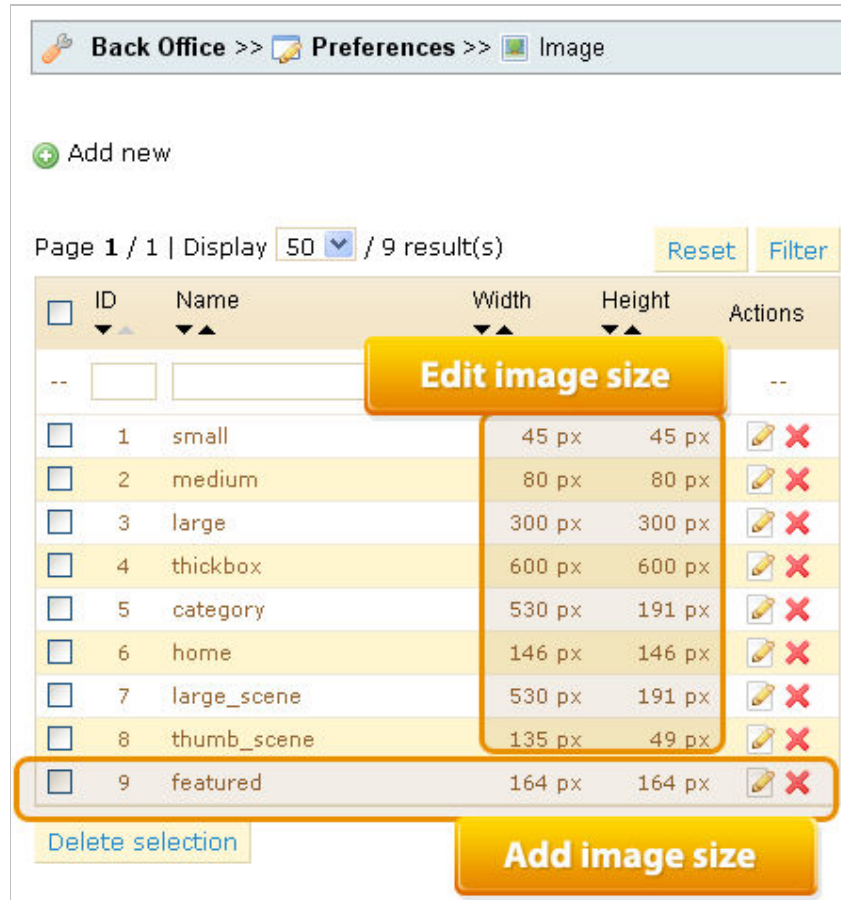

1. Upload your logo. (**Your logo will be visible in your email messages and admin page.**)

You need to upload your logo manually in order to see it in your store. Here is how to do it:

- Save your logo in **.png** format file
 - Make sure you rename it as **header_logo.png**
 - Upload your logo to your **yourshop / img** directory.
2. Upload your favicon (.ico). Favicon size: 16x16 px.
 3. Choose the **NinaBobo** theme.

IMAGE SIZE

In your Prestashop admin panel, click on **Preferences**, and then click **Image**. Edit the image size according to the image below:

Back Office >> Preferences >> Image

+ Add new

Page 1 / 1 | Display 50 / 9 result(s) [Reset](#) [Filter](#)

IMPORTANT NOTE :

Don't forget to regenerate thumbnails after you've finished editing the sizes.

MODULES

Activate modules from **NinaBobo-Theme** file through the **Modules** menu in your Prestashop admin panel.

Custom module for **NinaBobo** Theme:

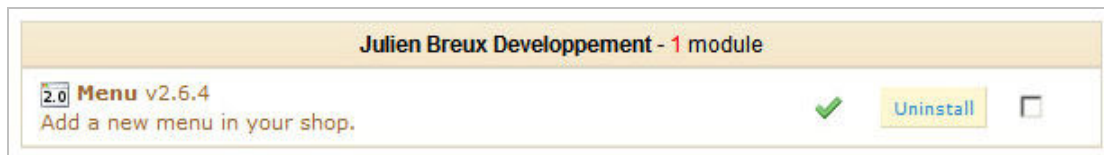

- **Homepage Slider** v1.0
- **User info block** v0.1
- **Wishlist block** v0.2
- **Cross selling** v0.1
- **Featured Products on the homepage** v0.9
- **Menu** v2.6.4
- **Footer links block** v0.1
- **Scrolling page plugin jquery.ui.totop** v1.1

NOTE: Some of these modules need to be configured to make it works.

Julien Breux Menu

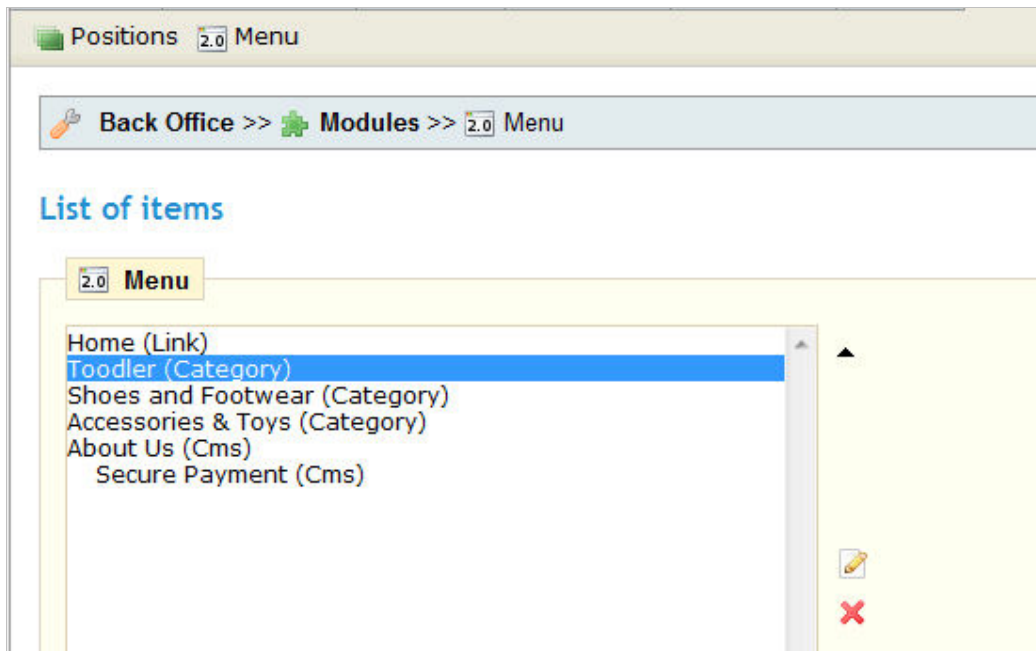

First, install **Menu 2.6.4** module.

To configure, click **Menu** after **Position**. It will lead you to the **List of items** dialog page.

Menu List

In **Menu**, you'll find the list of items to be shown in the page. You can edit or delete it by clicking the 'Edit' or 'Delete' button respectively.

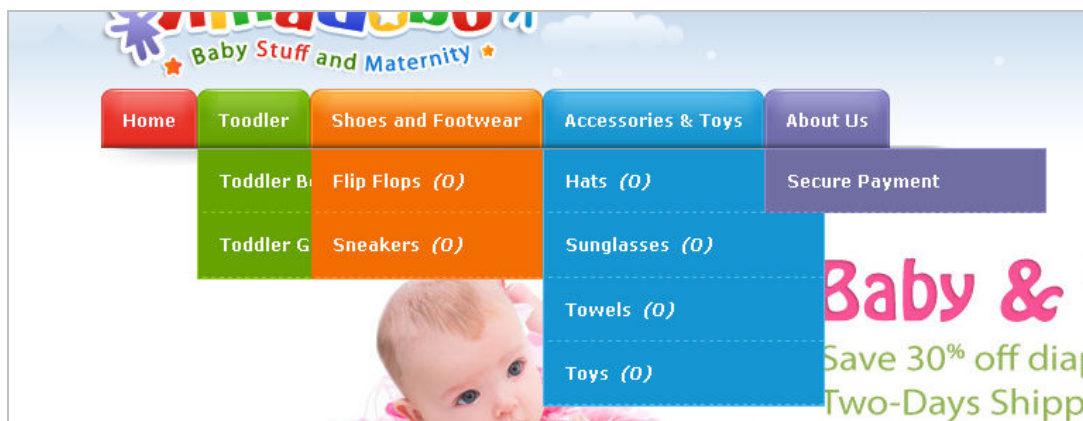

Add New Menu

To add a menu, in **Add Menu** box do as the following:

1. **Type.** Choose one of the desired menu item type.
2. **Parent Item.** This one will show the menu list which has been created or had exist before. Choose the parent item for the item to be listed as child menu.
3. **CSS Class.** This option will come in handy if you want to have distinctive menu in the menu list.
4. **Title.** Fill the desired title for created menu. It will show as the menu in the menu list.
5. **Must be logged.** Check if you want to restrict unregistered member to access the menu.
6. **Icon.** Upload the icon for the menu. It's up to your preference for image size and type, but up to 48x48 pixels size and .png or .gif format recommended.

Add CSS class on Menu

There are five different colors to choose for your horizontal menu; **red**, **green**, **orange**, **blue** and **purple**. To add the colors just fill the **CSS Class** text form with the color you want.

 **Add item**

Type: Categories  *

Parent Item: -- Choose a parent item -- 

CSS Class:
Use this option to set a CSS Class to this item.

Title: 
If you leave the field blank, the default title will be used.

Must be logged: ☐
User must be logged.

Level:
Maximum level of unfolding, leave 0 for all.

Category:

Home

Accessories

Hats

Sunglasses

Towels

Toys

Shoes
